

EZ CREDIT 2K

Finance and Insurance Systems have worked in the Retail Sales Finance Space for 40 plus years. We have worked with a number of Finance Companies that Finance Credit Products for our Retail Clients. We developed an exciting product for the Retail Space!

1. A unique, electronic decision scoring system that will give you an answer in less than 5 minutes.
2. The ability to close a sale with less wait time.
3. A system that will provide you with data every 90-180 days on every credit worthy customer who qualifies for an add-on to their installment note.
4. An opportunity for your close ratio to sky rocket because of the fast decision while the customer is in the store.
5. Training and on-going support of the entire system.
